Dear Brother, I have just received from New York, a commission, with instructions to take directions from you as to my whereabouts. I shall commence operations here at once, & remain in this region till I hear from you. I expect indeed to attend the meeting in Lexington bridge next Tuesday, but shall then come immediately back so as to receive any communication directed to me at this place. If you can permit me to remain here till about the first of March, or even a few days later, I should like it, as I think I can be at work to some purpose in the mean time, & I want to refit a little before going out of reach of home again. However, let me hear as soon as possible what you are going to do with me. If you write soon to N. Y., you may mention to the Ex. Com. that I have accepted their appointment, as I shall not write there myself, till after I see whether we can do anything for their funds in this place.

Yours &
C. C. Burleigh.
